**Safety data sheet**

---

**1. Identification**

Product name	Neutral Best Remover
Company name	Miccheal Chemical CO., LTD.
Address	2-14 Ishijima, Koto-ku, Tokyo
Tel	+(81)3-5633-2520
Fax	+(81)3-5653-3575
Department	Reserch and Development
Emergency contact	+(81)72-268-1182
Recommended use	Removal of water-based floor polish and polymer-type coatings applied to chemical flooring materials
Restrictions on Use	Do not use on linoleum, linotile, rubber tile or wooden floors. If you are planning to use this product for purposes other than those recommended, please consult with an expert.

---

**2. Hazard identification****GHS classification****Physicochemical hazards**

Corrosive to metal	Not classified
Flammable liquid	Not classified

**Health hazards****Acute toxicity**

- oral	Not classified
- dermal	Not classified
- Inhalation, gas	Not classified
- Inhalation, vapor	Not classified
- Inhalation, dust and mist	Not classified

Skin corrosion/ irritation Classification not possible

Serious eye damage/eye irritation Category 2

Respiratory sensitization Classification not possible

Skin sensitization Category 1

Germ cell mutagenicity Classification not possible

Carcinogenicity Classification not possible

Reproductive toxicity Classification not possible

**Specific target organ toxicity**

- single exposure	Category 1 (central nervous system, respiratory system, kidneys) Category 3 (anesthetic effects)
- repeated exposure	Category 1 (central nervous system)

Aspiration hazard Classification not possible

**Environmental toxicity****Aquatic environmental toxicity**

- acute	Category 3
- chronic	Classification not possible

**GHS labelling elements****Symbols/Pictograms****Signal word**

Danger

**Hazard information**

Causes serious eye irritation  
May cause an allergic skin reaction

Causes damage to organs (central nervous system, kidneys)

May cause drowsiness or dizziness

Causes damage to organs through prolonged or repeated exposure (central nervous system)

Harmful to aquatic life

#### Instruction

##### Prevention:

Do not breathe mist/vapours/spray.

Wash hands thoroughly after handling.

Do not eat, drink or smoke when using this product.

Contaminated work clothing should not be allowed out of the workplace.

Avoid release to the environment.

Wear protective gloves/ protective clothes/ protective eyewear/ protective mask.

##### Response:

IF ON SKIN: Wash with plenty of water and soap.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

If eye irritation persists get medical advice/attention.

If exposed or concerned: Call a doctor.

Call a doctor if you feel unwell.

If skin irritation or a rash occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

##### Storage:

Store locked up.

##### Disposal:

Dispose of contents/container in accordance with local/regional/national regulation.

### 3. Composition/information on ingredients

Single substance or mixtures

A mixture

#### Ingredient

Chemical or common name	Concentration	CAS No.
Surfactants	Nondisclosure	Nondisclosure
Benzyl alcohol	45-55%	100-51-6
Triethanolamine	0.1-0.5%	102-71-6
Builders	Nondisclosure	Nondisclosure
Others	Nondisclosure	Nondisclosure
Water	Balance	7732-18-5

\*As the ingredients and content are trade secrets, they will be notified separately after a confidentiality agreement is signed.

### 4. First-aid measures

#### If inhaled

Immediately move to a place with fresh air and rest in a posture that is easy to breathe.

Call a doctor if you feel unwell.

#### If on skin

Immediately wash off with a large amount of water.

Immediately remove any clothes or shoes that liquid has been spilled on.

Sufficiently wash any clothes or shoes that liquid has been spilled on before wearing.

#### If in eyes

Rinse cautiously with water for several minutes.

Next, remove contact lenses if present and easy to do. Continue rinsing afterwards.

If eye irritation persists get medical advice/attention.

#### If swallowed

Immediately wash the person's mouth out with water and ensure they drink a large amount of water.

If the person is unconscious, do not put anything in their mouth.

Do not induce vomiting and promptly get medical advice/attention.

### 5. Fire-fighting measures

#### Extinguisher

This product does not burn.

#### Fire-extinguishing agents that must not be used

None known

#### Specific fire fighting method

Perform fire-fighting work from a windward direction.

Spray water to surrounding facilities to keep them cool.

When extinguishing a fire, wear appropriate protective equipment such as rubber protective clothing, rubber protective gloves, goggle-type protective glasses, rubber boots, and an air respirator.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Entrance by anyone other than those involved is prohibited. When working, be sure to wear protective equipment (rubber gloves, protective glasses, protective clothing, rubber boots, etc.) to avoid contact with eyes and skin and inhalation of mist. If indoors, ventilate well until work is completed. In case of large amounts, evacuate people safely.
Environmental precautions	Avoid release to the environment. When diluting with a large volume of water, take care so the contaminated waste water should not be discharged into the environment without being processed properly. Do not flush the leakage directly into rivers and sewage.
Methods and materials for containment and cleaning up	In case of a small volume, absorb leakages with adsorbents (sawdust, earth, sand, rags, etc.) and thoroughly wipe the rest with rags or mops. In case of a large volume, prevent the outflow to the surrounding area and appropriately dispose after leading it to a safe place.

#### 7. Handling and storage

##### Handling

Technical measures	Install equipment by the handling place for washing the eyes and body in case of emergency. Take the facility measures described in "8. Exposure controls and personal protective measures" and wear protective equipment. Do not overturn, drop, apply impact, or drag containers.
Local ventilation / Entire ventilation	Use in an area with sufficient ventilation.
Safety precautions of treatment	Do not contact, inhale or swallow. Wash hands, face, etc. thoroughly and gargle after handling.

##### Storage

Appropriate storage conditions	Store in a well-ventilated place. Keep container tightly closed. Store the product so that it is not mixed with other products. Keep the container away from direct sunlight and fire.
Safety materials for packaging containers	Use special containers designated by the company (special containers on which surface brand name, usage and precautions are written) when transferring this product to another container.

#### 8. Exposure controls/personal protection

##### Protective equipment

Respiratory protective equipment	Protective mask
Protective hand equipment	Rubber gloves
Protective eyes equipment	Protective glasses
Protective skin & body equipment	Protective clothing

#### 9. Physical and chemical properties

Physical state	Liquid
Color	Clear or Light yellow
Odor	Characteristic odor
Melting point/Freezing point	No data
Initial boiling point and boiling range	It is assumed to have a boiling point similar to that of water.
Flammability	No data
Upper/lower flammability or explosive limits	No data
Flash point	Not measured
Auto-ignition temperature	No data
Decomposition temperature	No data

pH	7.5, approximately (25 °C)
Kinematic viscosity	No data
Solubility	The product can be mixed with water at an arbitrary ratio.
Partition coefficient : n-octanol/water	No data
Vapor pressure	No data
Specific gravity (Relative density)	~1.02 (25°C)
Vapor density	No data
Particle properties	Not applicable

#### 10. Stability and reactivity

Stability	Safe when handled and stored in accordance with regulations.
Possibility of hazardous reactions	Reacts with strong oxidants and acids, generating heat.
Conditions to avoid	Freezing, high temperatures, light, excess oxygen, high temperatures, light metals and non-ferrous metals.
Incompatible materials	Acidic substances, oxidizing substances, and other general substances that should not be mixed with the product.
Hazardous decomposition products	Harmful and irritating gases such as nitrogen oxides.

#### 11. Toxicological information

Acute toxicity (oral)	No data
Acute toxicity (dermal)	No data
Skin corrosion/irritation	No data
Serious eye damage/eye irritation	No data
Respiratory sensitization	No data
Skin sensitization	No data
Germ cell mutagenicity	No data
Carcinogenicity	No data
Reproductive toxicity	No data
Specific target organ toxicity (single exposure)	No data
(repeated exposure)	No data
Aspiration hazard	No data

#### 12. Ecological information

Ecotoxicity	No data
Persistence/Degradability	No data
Bioaccumulation	No data
Mobility in soil	No data
Hazardous to the ozone layer	No data

#### 13. Disposal considerations

Information on the safe and environmentally sound disposal or recycling of chemicals (residual waste), contaminated containers and packaging containing said chemicals	Refer to the 【7. Handling and storage】. Dispose used containers after thoroughly washing. Dispose of in accordance with all federal, state and local applicable regulations.
--	--

#### 14. Transport information

International regulations	
UN No.	-
Propper Shipping Name	-
UN classification	-
Container grade	-
Marine Pollutant	Not Applicable

Marine regulation information	Conform to IMO regulations.
Aviation regulation information	Conform to ICAO/IATA regulations
Domestic regulations	Follow the applicable laws and regulations.
Specific safety measures and conditions for transportation	Avoid placing the container in direct sunlight or a hot place. When transporting the container, check that there are no leaks and carefully load the container so that it does not fall, drop, or is damaged, and prevent the load from collapsing.

#### 15. Regulatory information (only in Japan)

Industrial Safety and Health Act Enforcement Order Article 18 and Article 18-2

Benzyl alcohol

Trietanolamine

Industrial Safety and Health Act Enforcement Order Attached Table 1 (Dangerous Materials)

Not applicable

Industrial Safety and Health Act Enforcement Order Attached Table 3 (Specified Chemical Substances, Manufacturing Permitted Substances)

Not applicable

Industrial Safety and Health Act Enforcement Order Appended Table 6-2 (Organic Solvents)

Not applicable

Lead poisoning prevention regulations (Lead and lead compounds specified in Attached Table 4, Item 6 of the Enforcement Order of the Industrial Safety and Health Act)

Not applicable

Tetraalkyl lead poisoning prevention regulations (Tetraalkyl lead specified in Attached Table 5, Item 1 of the Industrial Safety and Health Act Enforcement Order)

Not applicable

Industrial Safety and Health Regulations Article 577-2 (Substances with concentration standards)

Not applicable

Industrial Safety and Health Regulations Article 577-2 (Carcinogenic Substances)

Not applicable

Industrial Safety and Health Regulations Article 594-2 (Chemical substances that cause skin damage)

Benzyl alcohol

Act on Promotion of Ascertainment of Emissions of Specified Chemical Substances into the Environment and Improvement of Management (PRTR)

Not applicable

Poisonous and Deleterious Substances Control Law (Poisonous and Deleterious Substances)

Not applicable

Act on Waste Treatment and Cleaning (Specially Controlled Industrial Waste)

Not applicable

Act on Regulation of Household Products Containing Hazardous Substances (Hazardous Substances)

Not applicable

Chemical Substances Control Law (Class 1 Specified Chemical Substances, Class 2 Specified Chemical Substances)

Not applicable

Fire Service Act (Hazardous materials)

Not applicable
